We are pleased to welcome you at our **7th International Week** held in Rietavas from 07 to 11 May 2012!

We are delighted to announce that this year the guests come from Spain, Turkey, Portugal, Romania, France and Slovakia. A variety of activities including education, culture, art, science and business make the time spent to be appealing.

We believe in the importance of the international networking and the exchange of ideas and good practice experience between lecturers, artists, scientists and entrepreneurs.

The idea is to invite not only lecturers from respective study fields of our partner institutes within EU LLLP Erasmus programme but also experts of Art, Science and Business environment. They are asked to teach our students about their respective subjects, participate in the workshops, share good practice or present their contributions at the International seminar.

Guests will have the opportunity to do networking with our colleagues, scientists, business people and with other participants for the future activities and project developments and also to get to know the most beautiful sights of Lithuania during sightseeing trips around Lithuania.
